LIGHTOLIER® 45 Industrial Way . Wilmington . MA . 01887

February 14, 2005

Mr. Vernon A. Williams Secretary Surface Transportation Board 1925 K Street, NW Washington, DC 20423-0001

Reference STB Ex Parte No. 656

Dear Mr. Williams:

Lightolier is a lighting manufacturer with twelve manufacturing and warehousing facilities throughout the United States. One of our largest expense items in our business is for freight costs. Freight costs over the last few years have been escalating and is becoming a detriment to our overall competitive environment.

We understand the Surface Transportation Board is evaluating the appropriateness of extending continued antitrust exemption for the National Classification Committee. We urge you to deny the continuance of this collective agreement.

We believe it inappropriate to continue the collective agreement activity of the National Classification Committee in today's deregulated economy. Freight costs should only be determined in the open market with agreements/contracts determined between individual shippers and truckers.

If there is some overriding reason why the NCC should continue, then it should be reorganized with its makeup 50% shippers and 50% truckers.

Sincerely,

William C. Fabbri Vice President - General Manager
